PARIS

PRESS RELEASE - JUNE 2022

An enchanted interlude in the heart of the French capital, the Ritz Club & Spa offers a global and holistic approach to beauty and well-being, in keeping with the essence of the Ritz Paris: *«exceptional, personalized and caring service, innovative treatments, and a unique experience in a legendary, elegant setting,»* says Natalie Bader Messian, Member of the Board of Directors of the Ritz Paris, who initiated the project.

«Flowers are the vibrant heart of this timeless new destination inspired by important women in the hotel's history.»

Inside its exclusive entrance, accessible directly from 17 Place Vendôme - a unique feature for a grand Parisian hotel - the visitor is greeted by fresh codes: a warm and contemporary atmosphere enhanced by a superb spherical pendant light composed of delicate porcelain flowers.

Parisian members step into a refined environment, where the legendary Ritz Paris savoir-faire proposes custom-tailored wellness breaks for body and mind, transforming each moment of beauty into a holistic experience that addresses each of the senses in the most delicate way.

AN ODE TO FEMININITY

The Ritz Paris pays homage to the exceptional women who have surrendered to its charms and reciprocates their love with open arms.

The *Edelweiss* beloved by Marie-Louise Ritz, Colette's *Iris*, Zelda Fitzgerald's *Orchid*, and Ingrid Bergman's *Rose* - among others - lend their names to intimate treatment rooms and beautiful likenesses hand-painted on the walls.

In each room, a spectacular ceiling light composed of hundreds of porcelain flowers extends an invitation to escape and relax.

RITZ CLUB & SPA BODY MESSAGES

POSITIVE ENERGY AND AN ATTENTIVE EAR ARE AT THE HEART OF A NEW RITZ CLUB & SPA TREATMENT MENU BASED ON THE BENEFITS OF FLOWERS.

Combining a sensory experience with efficacy, flowers personalize each Ritz Club & Spa body treatment. Specially formulated for the Ritz Paris, the 100% natural and French-made floral oils used for every massage impart an authentic sensation of inner peace.

4 EXCLUSIVE MESSAGES:

Ritz Club & Spa body massages named *Iris*, *Edelweiss*, *Jasmine* and *Rose* mirror the flowers they honor.

IRIS: rebalancing

Inspired by Korean relaxation techniques, *Iris* is a global treatment with a lively, particularly oxygenating tempo. This dynamic ritual lets you breathe deeply, open up and let go, imparting a divine sensation of floating and lightness.

EDELWEISS: relaxing

The enveloping, comforting *Edelweiss* centers on the delicate white flower's soothing virtues. A slow, fluid rhythm based on Californian massage philosophy and gentle pressure invite perfect harmony between body and spirit. Release your worries and experience absolute serenity.

JASMIN: toning

Thanks to its relaxing and revitalizing properties, *Jasmine* is ideal for those in need of deep muscular relaxation, physical recovery and an immediate boost. Created the spirit of a Deep Tissue massage, this treatment relaxes and invigorates the body through profound smoothing techniques.

THE ROSE RITUAL is an enchanted interlude comprising an exfoliating body scrub with rose, followed by a choice of massage: *Iris*, *Edelweiss* or *Jasmine*. Whether slow and fluid, enveloping and comforting, or deep and invigorating, the chosen treatment features the natural oil that corresponds to its signature flower. To finish, a gentle, voluptuous wrap awakens the senses.

His signature, a mix of elegance and naturalness, is the essence of Parisian chic. The scalp is revitalized, reoxygenated and the hair appears transformed and stronger, both immediately and over time.

Men will also appreciate the barber service, provided in the quintessential Ritz Paris atmosphere.

MANUCURIST: NATURAL BEAUTY FOR HANDS AND FEET

At the Ritz Club & Spa, Manucurist sees to the beauty of hands and feet. The French brand, which creates products with natural and vegan ingredients that respect both the nails and the environment, has become a reference in the world of «green» beauty.

AN EXCLUSIVE RITZ CLUB & SPA TREATMENT

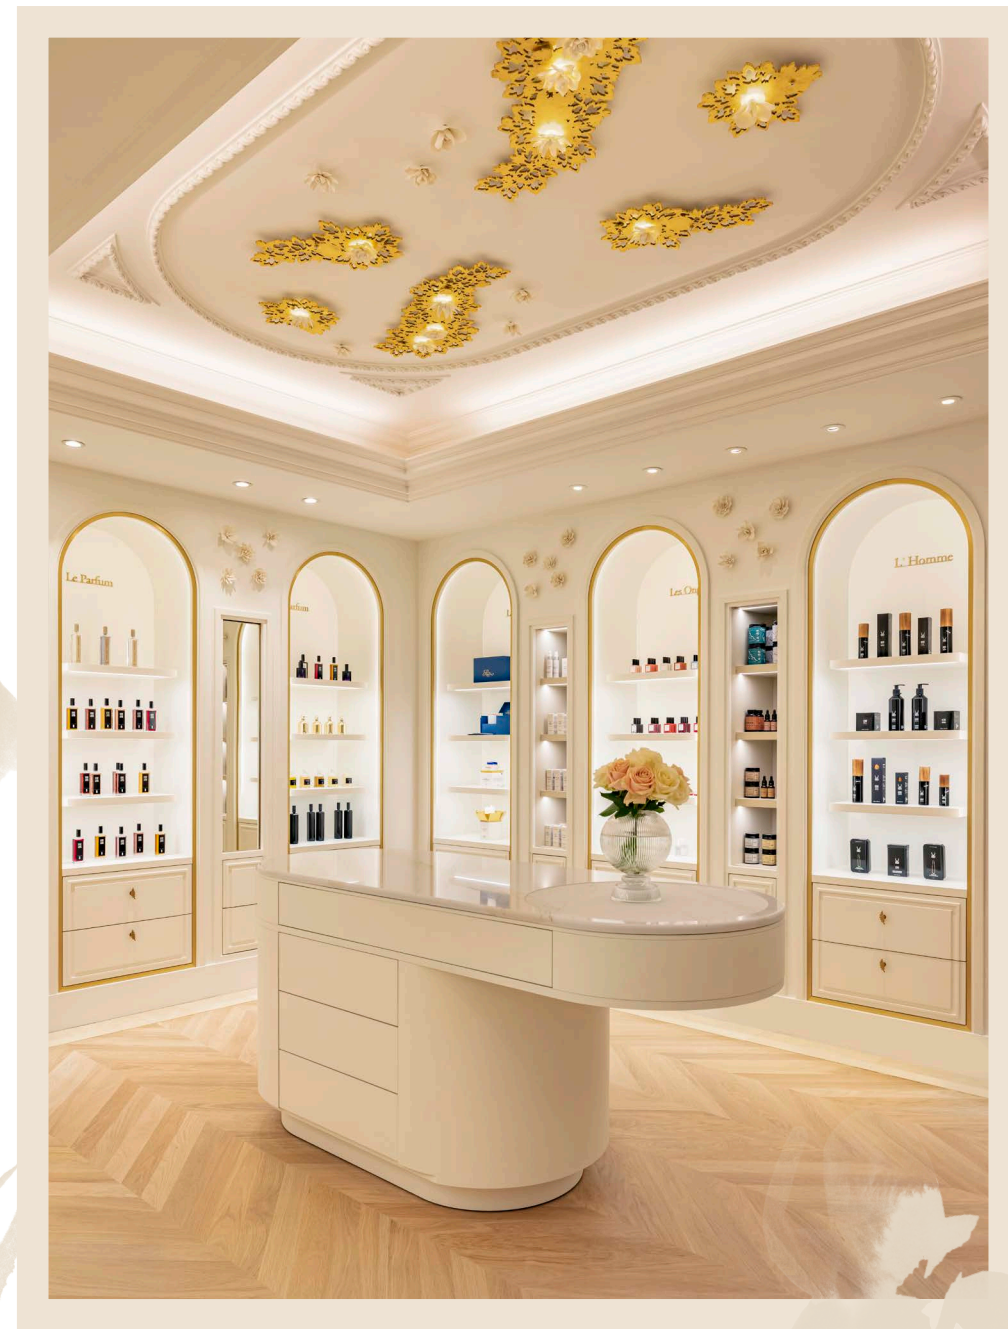

Especially for the Ritz Club & Spa, Manucurist has imagined a true wellness treatment for the nails. A method designed in six extremely voluptuous steps begins with a scrub of cane sugar, oil and rose petals to exfoliate and soften the skin. This is followed by a Manicurist manicure-pedicure based on their signature protocol and savoir-faire. Lastly, the application of a treatment base adapted to the nature of the nails and a deep moisturizing phase conclude this exclusive treatment for hands and feet. And to fully integrate this moment with the codes of the celebrated Parisian hotel, specific rituals were developed especially for the Ritz Paris.

THE SWIMMING POOL: PLUNGE INTO THE «RITZ BLUE»

The splendid swimming pool at the Ritz Club & Spa prolongs the tranquility of body and spirit. Under a 180 square-meter *trompe l'oeil* sky, the pool measuring 16 meters long by 9 wide and composed of 600,000 mosaic tiles invites guests for a divine dip, set to music streaming from underwater speakers.

A few meters away, the Floral Bar likewise focuses on naturalness and clean green living. A *healthy* menu inspired by plants and the benefits of flowers is part of the Ritz Club & Spa's holistic philosophy.

THE BEAUTY BOUTIQUE: A CURATION OF EXPERT BRANDS

As an extension of our holistic philosophy, a Ritz Club & Spa beauty boutique dedicated to well-being and global beauty features a selection of leading brands handpicked by Ritz Club & Spa's experts, among them Hyg e, LA.BR, Le Baigneur and Ebenholz, as well as Biologique Recherche, Serge Lutens, Manucurist and Ritz Paris.
