LA NUIT ENCHANTÉE

*An exceptional gastronomic and musical evening
in the heart of the hotel's Grand Jardin.*

T

he quintessence of Parisian elegance, the Ritz Paris is preparing to welcome the summer season in an exceptionally chic, bucolic ambiance.

Bringing together two emblems of French excellence - gastronomy and music - the Ritz Paris is opening its 1600 square meters Grand Jardin for an exceptional cocktail reception followed by an intimate concert of Renaud Capuçon at nightfall.

The evening will begin with an **exceptional champagne cocktail** accompanied by exclusive creations by two talented chefs at the Ritz Paris, Jérôme Legras and François Perret. An array of delicate savory and sweet dishes will delight the most refined palates.

Next, from 9:00pm, it's time for the **concert of Renaud Capuçon**, one of the greatest violinists of his generation, in the hotel's enchanting garden. The virtuoso will play works from the classical repertoire as well as contemporary film scores alongside pianist Guillaume Bellom. A veritable ode to happiness and poetry, played in the open air.

“In the Grand Jardin at the Ritz, the magic and emotion of a moment suspended in time will resonate in unison with my violin” said the incomparable musician, who received his very first violin at just four years old.
